# *EZ*-Light

OPTIS
RESELLER
SOLUTION

Lighting system design in SolidWorks®

Simulate and analyze lighting performance and efficiency

EZ-Light benefits :

- Ensure compliance with international lighting standards
- Reduce product development costs and time to market with virtual lighting prototyping
- Extend your innovation capabilities; test endless design iterations
- Integrated in SolidWorks®: No imports or bridges, familiar interface

Proven physics-based optical simulation for 100% product correctness

www.*EZ*-Light.com

EZ-Light

- **Perform in-depth Photometric analysis**

  - Measure Illuminance, Luminance and Intensity

  - Generate IES and EULUMDAT files
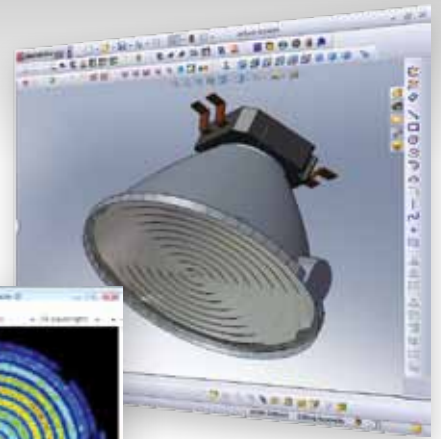

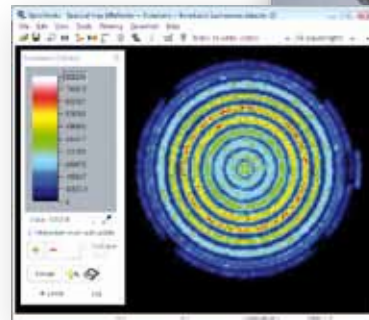

- **Rapid unlimited raytracing**

Exterior Lighting

Interior Lighting

Electronics

Education

- **Comprehensive measured librairies for surfaces, materials and light sources**

- **Ray files compatible**

- **Characterize your LED sources**

- **Design LED lenses**

OPTIS-MAKING LIGHT WORK FOR YOU..
